

**THE TANZANIA  
INSTITUTE OF BANKERS**

# PRESS RELEASE 2025

## Greetings

We're thrilled to announce a significant landmark in TIOB's journey towards advancing ESG education within the banking sector in Tanzania. We have signed a Memorandum of Understanding (MOU) with EmpowerESG as our strategic partner to support and enhance TIOB's ESG offerings over the next three years. This MOU marks the beginning of a fruitful collaboration and partnership with the objective to enhance ESG awareness and understanding within the financial sector in Tanzania.

EmpowerESG specializes in delivering tailored sustainability training solutions that help organisations to harness and demystify ESG for long term growth. The team brings together a combined 75 years of unparalleled expertise and global experience to guide organizations in navigating ESG challenges and opportunities.

In addition, TIOB is also committed to embedding ESG principles within its own operations as it embarks on a journey toward a sustainability driven future in Tanzania.

Empower ESG will also be contributing to the East African Banking School Conference later this year providing valuable insights and training on relevant ESG trends.

The teams at EmpowerESG and TIOB are very excited about the initiatives that we are co-creating for the Tanzanian banking sector and we are confident this partnership will deliver meaningful value to all our stakeholders in the finance sector.

Let's work together in partnership to develop a more sustainable future for Tanzania!
